## Professional Summary

Computer Science undergraduate with strong foundation in data structures, full stack development, and backend architecture. Experienced in building scalable MERN stack applications with focus on clean architecture, API design, and real world problem solving.

## Education

### Bachelor of Technology in Computer Science

September 2023 – Present

VIT Bhopal University, Madhya Pradesh, India

CGPA: 8.62

### Higher Secondary Education, Computer Science

April 2021 – July 2022

Police Modern School, Mathura, India

Percentage: 94%

### Secondary School

July 2019 – July 2020

St. Pauls Sr. Sec School, Mathura, India

Percentage: 90%

## Technical Skills

Programming Languages: Java, Python, C++, Kotlin, HTML, CSS, JavaScript

Frameworks and Libraries: React JS, Node.js, Express.js, Spring Boot

Databases: MongoDB Atlas, MySQL, Firebase Firestore

Tools and Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Postman

## Projects

### CodeMate

- Developed a native Android application using Kotlin as a video based educational platform for developers.
- Integrated Firebase Authentication, Firestore, and Firebase Storage for backend services and real time data handling.
- Currently building a custom backend component to support advanced features and server side logic.
- Authored Python scripts to automate bulk uploading and processing of video assets.

### Strocter (Money Psychology Tracker)

- Built a full stack web application to track and analyze user spending behavior.
- Developed backend using Node.js, Express, and MongoDB (MVC architecture).
- Implemented JWT authentication and RESTful APIs for secure data handling.
- Created responsive frontend using React (Vite) and Tailwind CSS.

### BizFlow

- Developed a full stack web application to streamline billing and business flow management.
- Built a responsive user interface using React JS and Tailwind CSS.
- Designed and implemented REST APIs using Node.js and Express.js to handle backend logic and data processing.
- Designed and managed a MySQL database to efficiently store and retrieve user and billing data.
- Used Git for version control and collaborative development.

## Certifications

Android Development - Imarticus Learning

Coding Ninjas Level 3 - Coding Ninjas

## Honors and Awards

Secured 3rd Place in Android Xplore Hackathon hosted by Imarticus Learning for innovative Android application development.
