PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full-stack web development, REST API design, and mobile application development. Skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js), Kotlin, and SQL. Proven ability to design and develop scalable, secure web applications while writing clean, maintainable code. Actively seeking software development roles as a Full-Stack Developer, Backend Developer, or Android Developer.

EDUCATION

VIT Bhopal University <i>Bachelor of Technology in Computer Science and Engineering (CGPA: 8.84 / 10)</i>	Bhopal, India 2023 – 2027
Police Modern School <i>Class XII (CBSE) – 93.8%</i>	Mathura, India 2021 – 2022
St. Paul's Sr. Sec. School <i>Class X – 90%</i>	Mathura, India 2019 – 2020

SKILLS

Languages: Java, JavaScript, TypeScript, Python, C++, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, Spring Boot, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, PostgreSQL, Firebase Firestore
Tools: Git, GitHub, VS Code, Postman, MongoDB Atlas, Vercel

PROJECTS

Strocter MERN Stack Finance Tracker <i>React.js, Node.js, MongoDB</i>	Mar 2026 – Present
- Engineered a full-stack financial analytics platform using the MERN stack, integrating 6+ REST APIs for transactions, budgets, and financial reporting. - Implemented JWT-based authentication and role-based access control (RBAC) to secure user accounts and sensitive financial data. - Built responsive React.js dashboards with real-time data visualization, charts, and interactive filters for actionable financial insights. - Developed unit and integration test suites with Jest and React Testing Library, improving code reliability and maintainability.	
BizFlow Billing Automation Platform <i>React.js, Node.js, MySQL</i>	Jun 2024 – July 2024
- Architected a full-stack billing automation platform for small businesses, automating invoice generation and payment tracking workflows. - Designed normalized MySQL database schemas and indexing strategies to support fast, reliable data retrieval for large billing datasets. - Developed interactive admin dashboards for real-time reporting, enabling clear visibility into invoices, payments, and client accounts. - Automated scheduled email dispatches for invoices and receipts using Node.js, scaling client billing capacity to 100+ accounts.	
CodeMate Android Learning Platform <i>Kotlin, Firebase</i>	Mar 2023 – May 2024
- Built a native Android learning platform using Kotlin with Firebase Authentication, Firestore, and Cloud Storage. - Implemented video compression and Firebase upload pipelines in Python to streamline content publishing workflows. - Optimized UI rendering with RecyclerView ViewHolder patterns and layout flattening for smooth scrolling and better app performance. - Developed RESTful backend APIs using Node.js and Express.js, reliably handling daily user content requests for the platform.	

CERTIFICATIONS

Marketing Analytics – NPTEL (IIT Kharagpur), Elite Grade	Jan 2026 – Apr 2026
Oracle AI Foundations Associate – Agentic AI	
Android Application Development – Imarticus Learning	
Data Structures and Algorithms Level 3 – Coding Ninjas	

ACHIEVEMENTS

Secured 3rd Place in Android Xplore Hackathon conducted by Imarticus Learning
